This work is a versatile Christmas selection that may be played by bells alone; bells with unison voices; or bells, voices, and brass quintet (2 trumpets, French horn, trombone, & tuba). It includes an easily memorized "Processional" and the hymns "Let All Mortal Flesh Keep Silence", "While Shepherds Watched Their Flocks", and "Angels We Have Heard on High".

Advent Celebration

Processional

Line 1 starts. On the repeat, Line 2 is added. Lines 1 & 2 repeat again and Line 3 is added. Continue this pattern until all lines are playing and the conductor gives a signal to end. On measure 4 of that pattern, all bells hold after playing the first beat of that measure. Each line plays loud on its entrance, then softer on repeats. Line 5 is the melody and should be heard above all other lines after its entrance.

MLAHB1042

\$4.50

Paul McKlveen has arranged this French carol for a 2 octave handbell solo with piano accompaniment. Easy rhythms and a single key change from C Major to Ab Major allow a moderately proficient soloist to play at a faster tempo. The accompaniment is interesting and readily accessible to an intermediate pianist.

MLAHB1030

\$4.50

A delightful arrangement of the traditional English carol. Bells

in the 3-octave range are active. The ceremony of the wassail bowl is an English Christmas custom that has been commemorated in this song - a brief history is included on the inside cover. While not technically difficult, the meter changes back and forth between 6/8 and 2/2, so ringers (and the director!) need to have a good sense of rhythm.

2 oct HB • Rating: Easy

MLAHB1020

\$4.50

The melody of the popular French folk song "Une Jeune Pucelle" became important historically when a Jesuit missionary wrote lyrics to explain the birth of Christ to the Huron Indians. This arrangement uses the original Huron title "Jesous Ahatonhia" which translates as 'Jesus, he is born'. A wonderful choice for beginning choirs, the 1st stanza is chordal, while the 2nd stanza has an arpeggiated bass line.

This straightforward arrangement is ideal for the beginning choir. Rhythmically, it uses only whole, half, and quarter notes with the exception of a single measure of eighth notes. Minimal techniques are employed (a few tower swings in the bass clef and a gyro at the end), allowing ringers to focus on purity of sound, legato ringing, and correct damping between notes.
